
Business Unit Strategy Template 2023 Carefit global By Dr John Aigbonohan

- CAREFIT GLOBAL is a medical platform that connects patients, hospitals and treatment funding partners in Nigeria, Africa and other parts of the world. It will operate as a medical tourism business that offers the following services:
 1. A search engine for **trusted** and **highly specialized hospitals and specialist doctors** for the chosen scope of medical specialty areas (Cancer, Heart, Kidney, Orthopedics, Mother and Child, Fertility, Cosmetics/Plastic Surgery and General Surgery) within Nigeria and outside Nigeria(India, Turkey, UAE, Czech Republic, Netherlands, Dominican Republic, St. Kits & Naevis)
 2. Virtual specialist consultation appointment reservation platform
 3. Platform where patients with confirmed/ planned specialist treatment/procedure in a **selected hospital (as per criteria)** can solicit/apply for financing from willing donors (individuals or groups)
 4. Platform where trusted medical missions organizers/project coordinators can post their upcoming projects and attract funding from corporate/group/individuals who have a practice of donating to such causes. (CSRs etc)

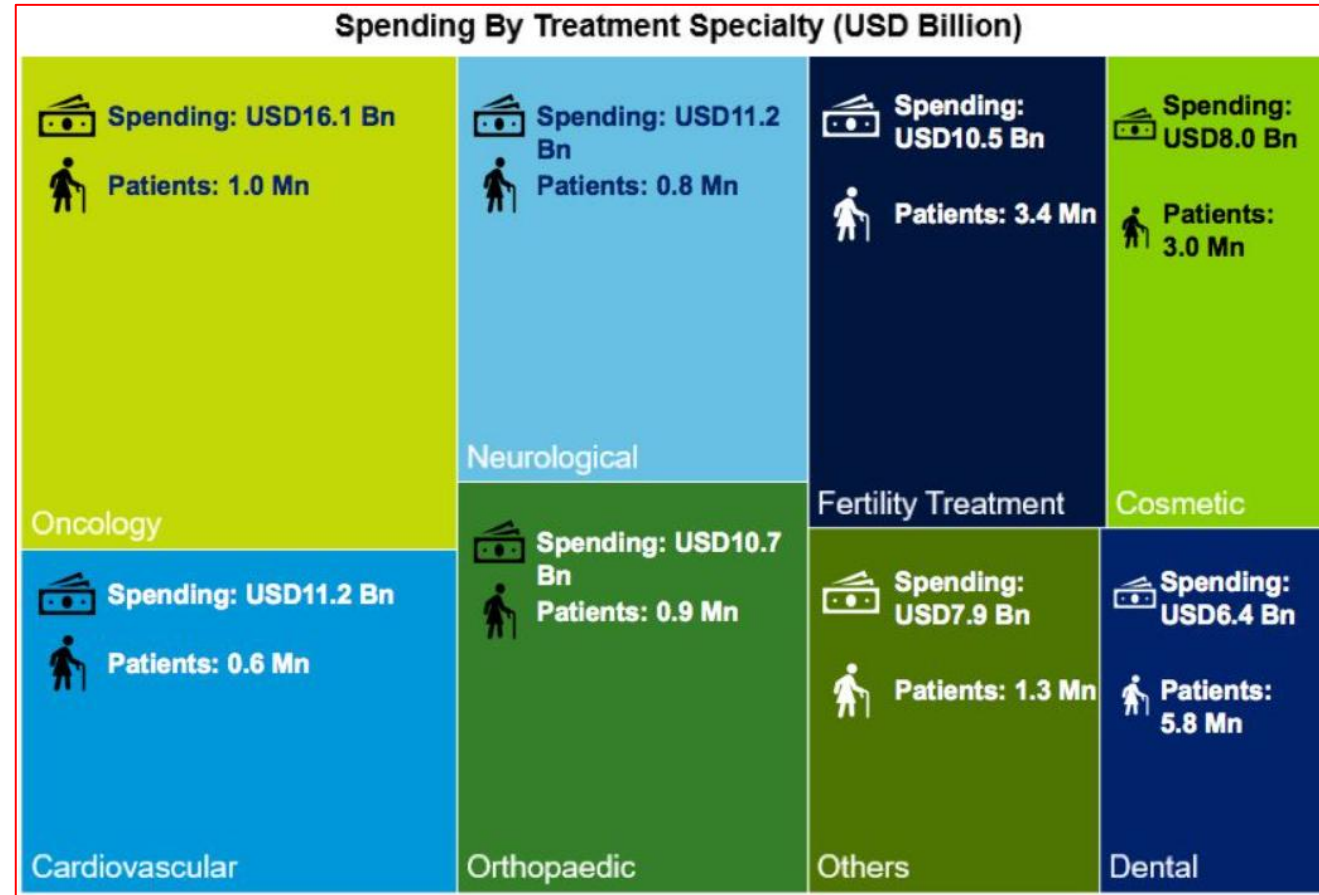

CAREFIT GLOBAL PRODUCT RANGE

Product Range	Target Market
Hospital Search Engine	Hospitals, Insured patients, NGO's, Travel agents
Virtual consultation with contracted Specialists –Second opinion	Hospitals, Insured patients, NGO's, Travel agents
Medical treatment funding information & application	Uninsured patients, medical fund raisers, NGOs, family & friends of patients
Medical missions projects catalogues/ directory	Corporate organizations aiming for CSR projects, Government organizations, Individual/ Corporate medical project managers

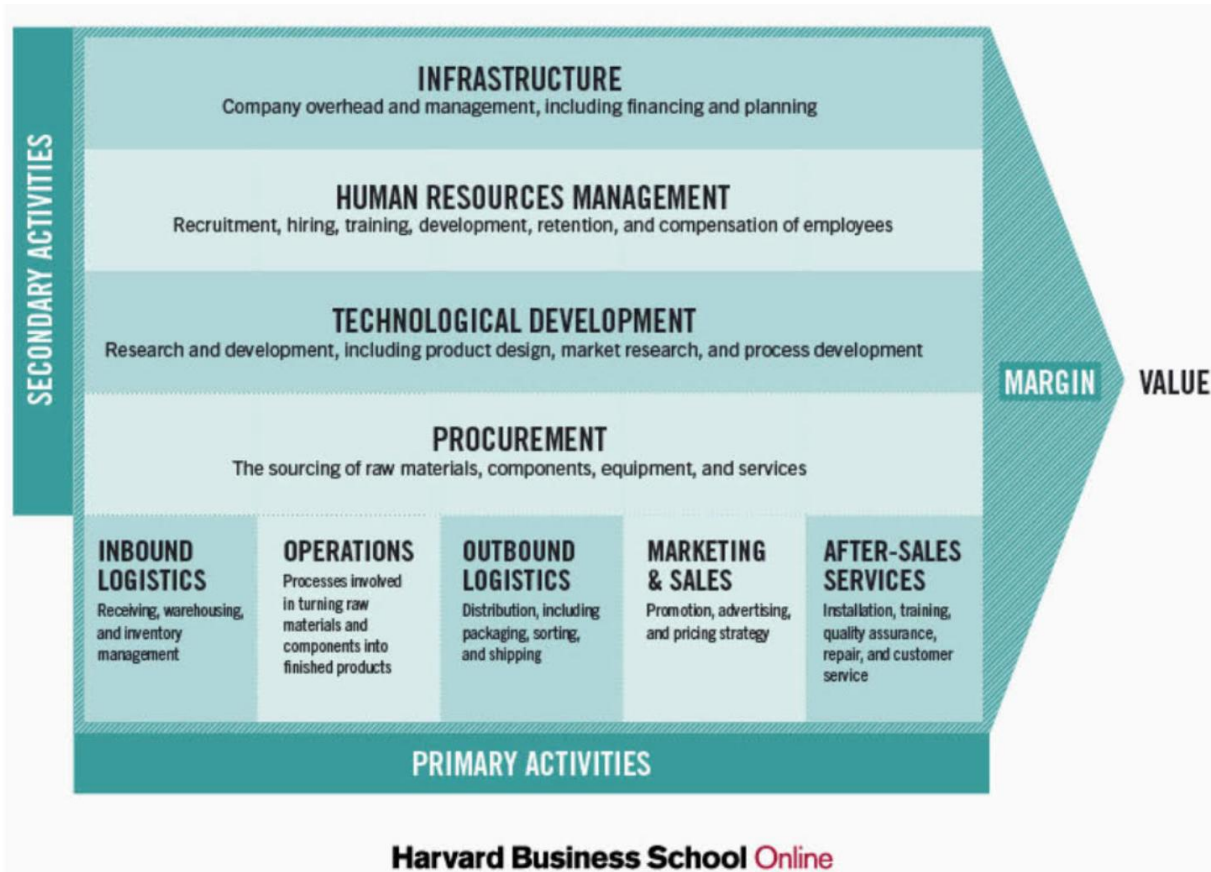

Market Analysis

- ✓ Medical Tourism was estimated to be a 60 Billion to 200 billion dollar transaction worth industry. (At least 72Billion spent annually)
- ✓ Value of the entire medical tourism business is app \$439 billion per year
- ✓ At least 14 to 16 million medical tourists to all countries in 2017. (Mckinsey projects less)
- ✓ Ave cost for each medical visitor was **\$3800 to \$6000** (cash) per visit (30% to 65% less expensive care outside USA)
- ✓ 2007 app 750,000 Americans travelled to other countries for healthcare; Increased to 1.4million in 2017
- ✓ Growing @ Annual GR 15 to 25% per year in Next 10yrs.
- ✓ 1% increase in Foreign Tourist Arrivals Equals 1% GDP

Glasgow Research & Consulting Aug 2022

Value Chain Analysis

- CARE FIT GLOBAL occupies the technology coach within the medical tourism industry by optimizing the user-experience while searching for desired destination for medical treatment.
- CAREFIT GLOBAL solved the following problems and brings the corresponding value to the customers

PROBLEMS VS PRODUCTS

Multiple platforms for accessing hospitals/funds

Combined directory of hospitals & funding providers

Prolonged waiting time for satisfactory quotes/center

Live Chats with Current Quotes & BOTs

Limitations with funding medical treatment

Crowdfunding and Medical missions funding

Five Forces Analysis-CAREFIT GLOBAL

The global medical tourism industry sector is known be barely unregulated and it involves numerous players tech platform operators, hospitals, government owned medical authorities, travel agencies, medical tourism facilitators, and family doctors.

New Entry

Major factors causing the barrier of entry:

- Regional Brand reputation –Brand Awareness is localised
- Substitutes- Technology Break through needed
- Suppliers power is high- Several hospitals in market
- Buyer is king: Accommodate free quotes

Substitution

Substitute service exist locally and customers are aware of them.

Especially the language and cultural affinity for Doctors in customers region.

Local substitutes have an advantage.

Provide multiple language translations on website

Supplier

Suppliers' power is low due to the large number of hospitals and facilitators offering procedures at budget prices

Buyer

There is growing demand for medical tourism services, however, decision buying power lies with customer (high)

Unpleasant experiences of previous tourists affect customers decision.

High cost and visa restrictions can influence customer choice

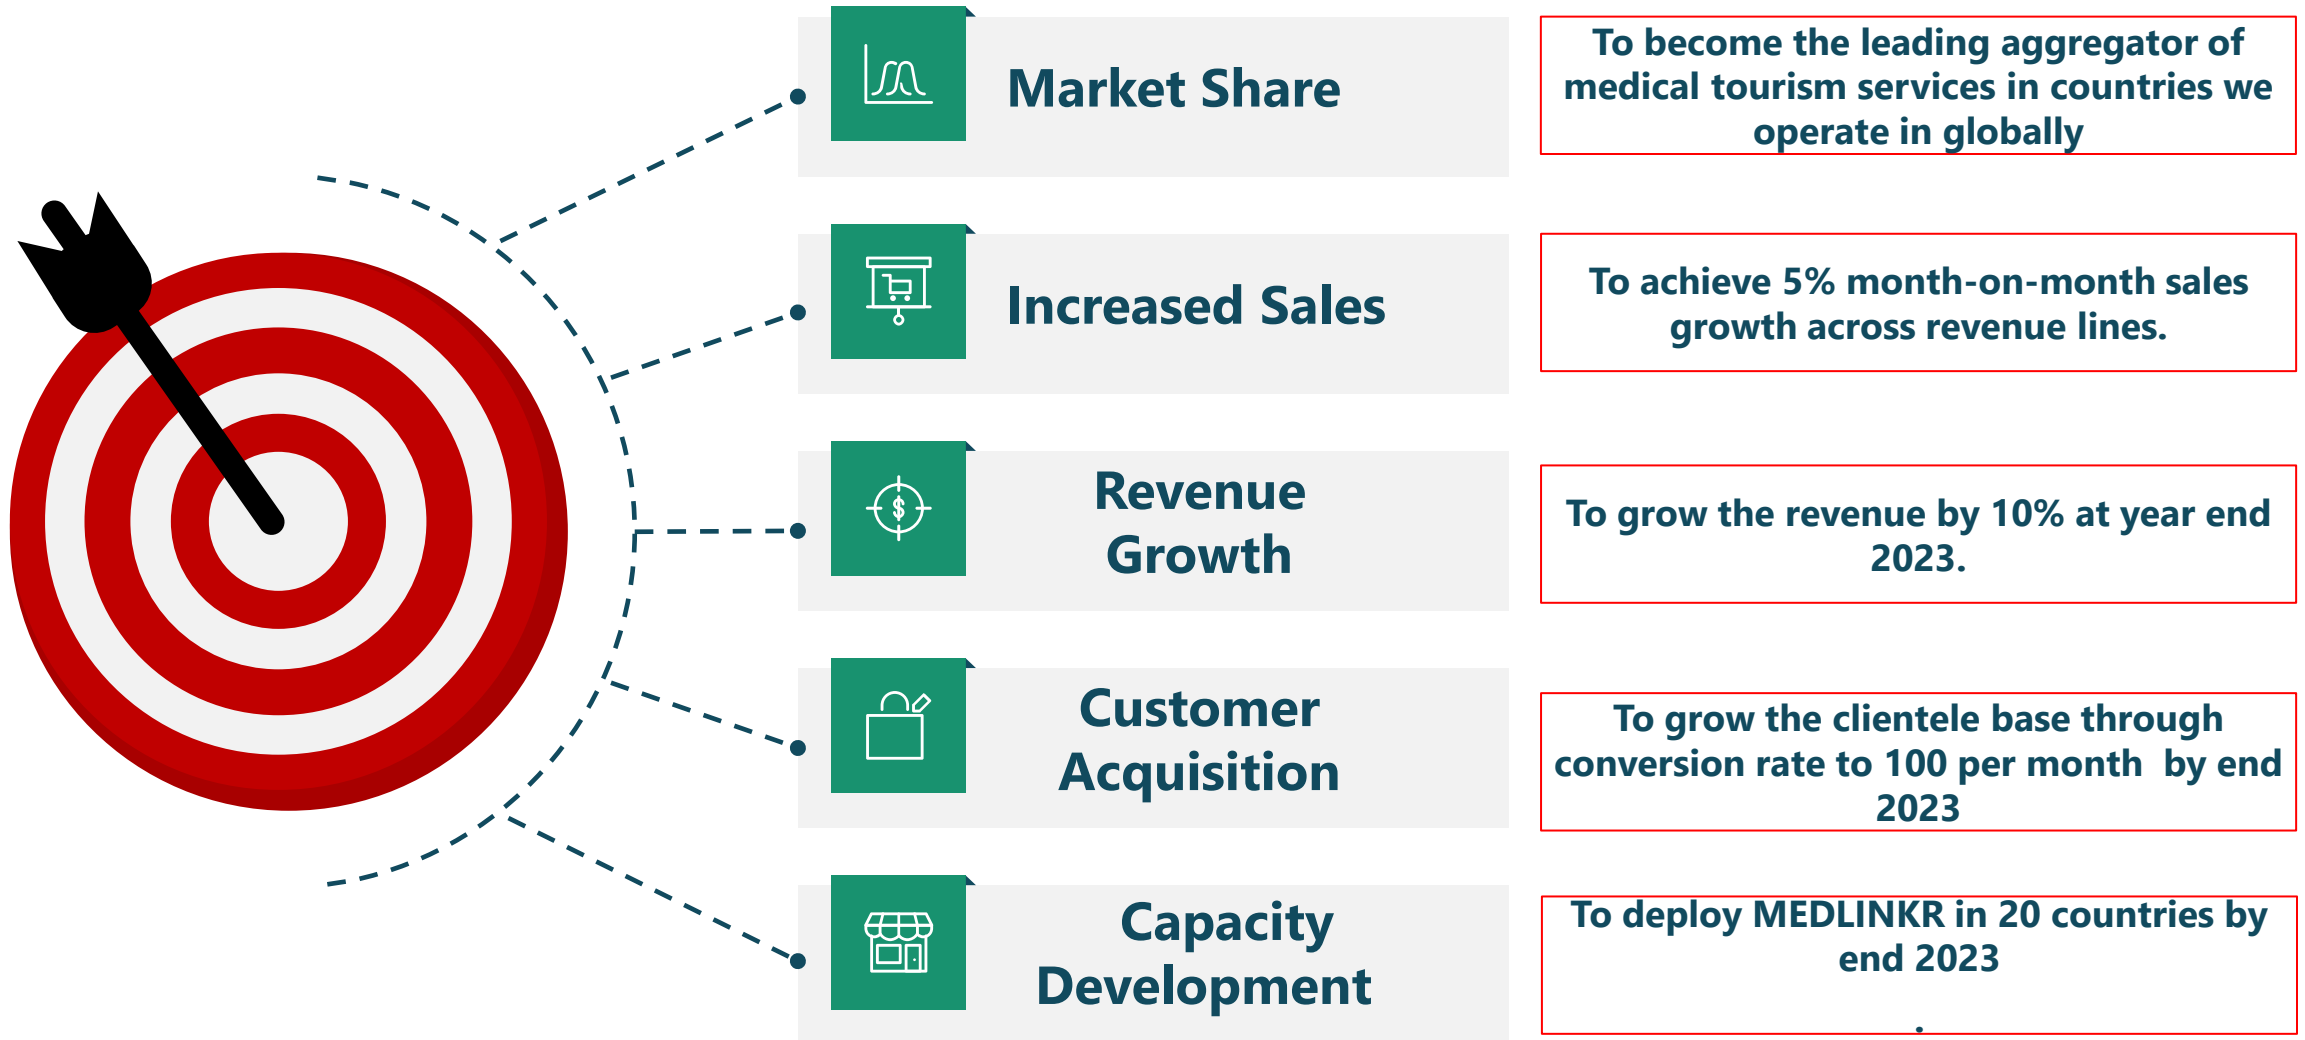

Competitive Rivalry

The industry promises huge return; hence, it is a competitive space.

The rivalry is driven by price competition, advertising battles, availability of hospital referral services by health insurance providers introductions and

Client Category	Client	Divisions	Level of Demands
Tier 1	Hospitals, Doctors	➤ Private ➤ Government ➤ Specialist care centres	High volume of demands, largely for consumables and equipment
Tier 2	Medical Division of Corporate Organizations	➤ FMCG ➤ Healthcare ➤ Oil & Gas ➤ Manufacturing ➤ Telecommunications ➤ Insurance & Financial Services ➤ Mining & Construction ➤ Education ➤ Agriculture	Highest demands for personal protective equipment.
Tier 3	NGOs,	Not for profits Focused on prevention, early detection and treatment support of Cancers, Chronic illness or wellness programs	Regular, but not-so-large volume, in comparison with Tiers 1 & 2

Business Objectives –CAREFIT GLOBAL

CAREFIT GLOBAL- Objectives & Business Model

Objectives

Short/Mid term

1. **Capacity development:** Deploy MEDLINKR in 20 countries within H1

Hospals	India, UAE, Thailand, Turkey	1. Medical Tourism	International Medical Consultants, Medical Facilities	Partnership contracts with International Medical Consultants, Hospials App/Webportal	1. Access to over 300 hospitals in India, Graded 2. Comparatively lower cost of treatment in India 3. Porvison of Marketing materials

Marketing Objectives

- To develop and maintain brand awareness

Marketing Strategy

- **DIFFERENTIATION**
- Competitive advantage will be gained through a focus on the services that the MEDLINKR offers that distinguishes it from its competitors in terms of:
 - Quality
 - Customized services tailored to client requirements
 - Fair price

Marketing Make-up

- **Product:** To build a mark of identification associated with the MEDLINKR, one that reflects a high quality standard and an excellent reputation
- **Price:** Fair and competitive
- **Promotion:** Due to specific character of the MEDLINKR, the promotion will be made through both online and offline marketing methods
- **Place:** Global
- **People:** Experienced marketing and advertising agency will be recruited

Marketing tools

Industry offline marketing tools

Purpose: to build brand awareness among targeted audience

Strategy: active popularization of MEDLINKR among targeted audience through the following activities:

- Participation in conferences focused on medical tourism
- Conducting presentations in health care facilities to medical specialists (predominantly Surgeons, Cancer Care & Cosmetics)
- Cooperation with non-governmental organisations focused on Cancer prevention and support for diagnosed patients
- Building network of health care industry contacts

Keys to Success: The keys to a successful traditional marketing campaign include the following:

- * Strategic identification and profiling of target clients (retail & corporate)
- * Proactive and creative marketing (online and offline)
- * Established contracts with channel partner
- * Competitive product design strategy and pricing

Google Ads Update

Revenue from Ads on MEDLINK were estimated with the assumptions below:

SCENARIO 1

The unit of calculation is website Page Views by each Visitor, let us consider it 2–3 Page View per Visitor and CTR (Click Through Rate which is the no of times views click your ad) is around 2%.

Your Visitor's Country like for Tier-1 Country e.g. USA, it would be \$1-\$5 and for Tier-3 Country e.g. it would be \$.10-\$.50

A Website Niche Like for Real Estate and Car Niche You will get Very High CPC and for General Blog, you will get lower CPC.

Tier 1 Country with Average Good Niche will get = 3000 Views X 2%= 60 ClicksX\$1 to \$5 = **\$60 to \$300**.

Tier 3 Country With Basic Niche will get= 3000 ViewsX2%= 60 Clicks = **\$60**

These Above Factor changes time to time but if you are looking for a Good Tool to Predict AdSense Earning,
ADSENSE CPC CALCULATOR from AdSense Academy (Google it)

SCENARIO 2:

You have 50,000 users traffic a month

Let's say each user visits 5 time your app on average each month, that's 250k visits,

Let's say each visit averages 10 pages viewed, that's 2,500k impressions a month

Let's say you have 2 ads per page, that's 5,000k ad impressions,

Let's say your network/SSP pays \$1 CPM for these ads, you pocket **\$5,000 / month**

In essence, for MEDLINKR to achieve the revenue projections annually, it will ensure that the user traffic to the website is grown to a minimum of 416,000 per month.

AND ensure that there are more than 10 ads on the website per month.
